

GEOOP LIMITED (NZX:GEO)
28 September 2016

GEO and NZ Post bundle products to help SMEs

GeoOp (GEO) and NZ Post will soon be launching a nation-wide trial to bundle GeoServices and BringIt, an innovative one-click courier option powered by NZ Post for quick deliveries, targeted at small to medium businesses that require a fast turnaround.

GEO's customers will benefit from this discounted bundle and save time to focus on what they do best, letting BringIt do the delivery work for them.

The trial is planned to be live in October and all GEO and NZ Post BringIt customers will be able to upgrade their subscriptions to take advantage of this offer.
